Department of Mathematics and Computer Science
University of Basel

12 January 2024

What has been done (Previous Week)

- Finished the Network analysis chapter
- Finished the Bluetooth analysis chapter
- Made additions to the Methodology and Experiments:
 - Analysis Methods
 - Limitations for the location, halfway for the decryption.
 - Made changes to the experiment design / setup / procedure to fit the redo experiments.
- Added bystander privacy implications to Device Overview chapter
- Rewrote the Introduction chapter
- Added the Related Work chapter
- Went through a second time and improved upon on all the chapters written above (as well as the App Analysis chapter)
- Added a Motivation and Thesis Goals chapter

What will be done next week

- Add Conclusion and Future Work chapter
- Add Discussion chapter
- Add an Abstract
- Add the Acknowledgement
- Improve on the Background Chapter
- Improve upon the Motivation and Thesis Goals
- Improve on the Network Analysis
- Improve upon the Limitations during decryption
- Improve upon the images generated in the thesis
- Improve upon the overall structure of the thesis

Meeting

Had a meeting with Nima on the 10th, where:

- Caught up on the previous weeks of progress
- Looked through the first draft of the thesis
- Went through some visualizations generated that could improve in their categorization / naming
- Discussed about possible decrypting traffic through modification of APK
